

Product Sheet on Environmental Qualities and Characteristics –
Champagne Palmer & Co

Information

About our packaging

Pursuant to Decree 2022-748 of April 29, 2022, concerning consumer information on the environmental qualities and characteristics of waste-generating products under Article 13-I of the AGEC law.

The anti-waste law for a circular economy, known as the AGEC law, was established within the framework of the 2004 Environmental Charter. This legislation aims to combat the accumulation of waste worldwide. It also requires companies to provide key information to clarify the composition and recyclability of packaging. This document outlines the recycled content of each packaging type, its recyclability, as well as applicable bonuses and penalties.

For more information on Article 13-I of the AGEC law, [click here](#)
